PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience building enterprise web applications using React, TypeScript, JavaScript, FastAPI, and AWS. Experienced delivering AI-powered products, RAG solutions, developer automation, and scalable frontend applications for enterprise clients. Skilled in collaborating with cross-functional teams, leading technical discussions, and shipping production-ready software with a strong focus on maintainability, performance, and user experience.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, C++
Frontend	React, Next.js, React Hooks, HTML5, CSS3, SASS/SCSS, Tailwind CSS, Storybook, Material UI, Framer Motion
State Management	Redux Toolkit, Context API, SWR, TanStack Query
Testing	Jest, JavaScript Unit Testing
Backend	FastAPI, Node.js, Express.js, REST APIs
AI	OpenAI APIs, RAG, LangChain, LLM Integration, AI Automation
Cloud & Tools	AWS, Docker, Git, GitHub, GitLab, Jira, Postman
Databases	MySQL, MongoDB

PROFESSIONAL EXPERIENCE

Emumba Pvt. Ltd. | Software Engineer II | Aug 2025 – Present

- Delivered AI-powered production features using React, FastAPI, OpenAI APIs, and AWS.
- Independently designed and built PostgresHub for Microsoft Build, leading architecture, implementation, and deployment.
- Led client demos, technical discussions, and cross-functional collaboration with Product, QA, and DevOps teams.
- Developed full-stack solutions using React, TypeScript, FastAPI, Docker, and GitHub.
- Mentored peers through Toastmasters leadership while driving technical communication.

Emumba Pvt. Ltd. | Software Engineer I | Apr 2024 – Jul 2025

- Developed enterprise React and TypeScript applications with reusable component architecture.
- Built complex frontend experiences using Redux Toolkit, SWR, React Hooks, and Material UI.
- Migrated applications to a centralized design system, improving maintainability and consistency.
- Reduced image load times by 90% through frontend performance optimization.
- Delivered 6+ enterprise proof-of-concepts, including projects for Fortune 500 organizations.
- Designed REST API integrations and backend services using FastAPI and Express.js.
- Wrote and maintained Jest unit tests to improve reliability and reduce regressions.

PROJECT/S

PostgresHub (Microsoft Build) [link](#)

- Built a full-stack developer learning platform independently from requirements through deployment.
- Developed AI automation to monitor documentation changes and generate GitHub pull requests.
- Optimized application performance by 90% for content-heavy pages.

Microsoft Solution Accelerators

- Delivered multiple AI-powered enterprise solutions using React, FastAPI, OpenAI APIs, and RAG.
- Improved solution scalability, reliability, and production readiness while collaborating with enterprise stakeholders.

EDUCATION

BS Software Engineering | Bahria University | CGPA: 3.43 | 2021–2024
